What is the General Plan?

Walnut Creek's General Plan is a long-range blueprint for the future. It guides decisions about housing, transportation, parks, economic development, environmental quality, and other topics that affect daily life in Walnut Creek.

Why Update the Plan Now?

Walnut Creek has changed since the last General Plan was adopted in 2006. This update will:

- Reflect community priorities.
- Respond to new state requirements.
- Prepare for future opportunities and challenges.
- Provide a clear, practical roadmap for the future.
- Guide future decisions through 2050.
